Angel's Data Library (Insert 1-40)

He sleeps unless he tries. When it rains, he doesn't have an umbrella. His job's company goes bankrupt. He can't keep a part time job yet and he is late to pay his rent. This person also has the worst misfortune, a Matsuri Gens.

The rain is falling on him when a fortune teller on the street corner calls out, "Your luck will change." However, since he's always had bad luck, Gens doesn't believe the fortune teller.

Three mysterious, beautiful girls suddenly appear in front of Gens. Ren, Tsubasa and Harumi introduce themselves. The three in their past lives were, respectively, a girlfish, a punkband and a barometer, and they are here to protect Gens as his guardian angels. Gens, not believing what they said, drives the girls out. Still, Gens misses them. Before long, the three girls understand the pieces of Gens' memories that he loses of, he used to have them as his pets. They decide to live together.

The three are willing to risk their lives to protect Goro, but their former habits get in the way. Everyone is always being held back by fears from their past. Something like this going on, new garden angel Tawawa appears. In their past lives Tawawa the cat made the punkiest, hardest and the goldfish fear her. Nothing can be done about their relationship.

Finley isn't still in this situation, Mayumi-sama sends them the signal and then the day is Goro as well. The number of angels increase to six at Mayumi-sama's order. They decide to take turns in assisting Goro. However, the angels' companions have to work 24 hours, which means they can never rest.

The hard-working angels become over-tired helping Goro. Now Ayumi the turtle and Akane the fire cat, the other angels are told to disguise themselves as animal dolls.

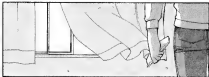

The animal doll tactic puts four angels away for the time not. The chaos, being because and unfolding over Gens, are Ayumi, Mika, Akemi and Nina. Finally, with a lot of effort, the number of angels is reduced, but the turtle, rabbit, fox and dog said they chose not to go. After a little while, things have become quiet, but the Four's experiment just continues to become violent. Caught crying, the four who had become animal dolls are released. Eventually, the eight white guardian angels want Gens's attention, letting quarrels unfold and the situation to collapse. Gens's fatigue is constantly increasing.

More than enough feelings for Gens returning, the angels are greatly troubling him. Mayumi seems happens to see his appearance. Finally the Maid's World decides to call back the angels. While the angels are crying, Gens's cellphone opens the Maid's World's gate and all the girls are sucked inside. Afterward, Gens is left with nothing but his cellphone and the angels are gone.

The Maid's World called the angels back, but the angels' love for Gens extends past their tolerance, and selfishly, instead of accepting, they argue constantly. Mayomi-sama informs the angels that they cannot be sent out in their current state. However, the girls hear Gens's voice searching for them, and they all reconstruct their relationship because of him, just as Mayomi-sama wished.

However, even with Mayomi-sama's strength, opening the once closed gate of the Maid's World is easier than they thought she is unable to do. For that reason, the four other guardian angels' strength is needed. Gens's grief is interminable because the girls cannot be reincarnated. Gens's grief was understood by the angels and he finally remembered the four other angels. The angels hope that Gens can remember them. That prayer exceeds dimensions and reaches Gens. Gens remembers the four. At the same time, the girls are reincarnated from the Maid's World.

Tired from searching for the angels that had disappeared, Goro returns to his room. While waiting, the angels secretly watched and everything became quiet in the room. The silence makes Goro sink deeper into his loneliness. Thinking about the girls, he plays the harmonica through the night.

Goro's cellphone begins to ring with the appearance of a degraded. Light suddenly fills the room. The twelve angels' prayers' power once again opens the gate of the Maid's World. One by one, the angels appear. Among them, two reincarnations come forth. Tell the maid, Midori the mouse, Momo the monkey and Rara the frog. The reunion with Goro is joyful. Certainly the remaining angels are very happy with the reunion and they hold on to Goro.

Thus, the 12 angels all return home with him. Goro, after that, realizes that they will always be together. Thus Goro's new life full of angels begins.

WAS IT
THE
MATTER?

POSS. CATS,
MONKEYS
AND EVEN
FROGS—

LOOK,
THEY'RE
STARTING
OVER
THERE.

OH I WAS
TALKING
ABOUT MY
FAMILY!

SURE!
OK!

I WAS JUST
THINKING
THAT
EVERYONE
WOULD
WANT TO DO
THIS TOO

NO
NO.

WHAT'S
WRONG?

DOGS,
CATS,
MICE,
AND
FROGS
KILL.

MY
QUALITY
OF LIFE
IMPROVED
THOUGH.

SURELY
MY PART...
MUST
BECOME
REALLY
SMALL.

BEFORE I
WAS LEAVING
ALONE IN
THIS
LITTLE
APARTMENT...

YOU
WOULDN'T
BELIEVE ME
IF I TOLD
YOU BUT
SURELY I
HAD A HUGE
FAMILY ONE
DAY.

It wouldn't be
much to believe it!

OH,
I SUPPOSE
THAT'S
PRETTY
DIFFICULT
TO BELIEVE.

THE YOUNGEST IS ONLY
SEVEN AND IS QUITE A
WARRIOR. OTHERWISE,
EACH OF THEM SEEM TO
BE AT QUITE THE TENDER
AGE TO BE IN

I only
wanted to
have fun
with
Master

I'm
sorry
every-
one

WHY'RE
YOU
DOING
YUKI?

We won't let
protectives
a night
after
all...

THAT'S
STRANGE.
I SUPPOSE
THAT AN
ATTACK WOULD
BE ENOUGH TO
GET HER TO
COME HOME.

HAS
MASTER
MADE
IT
BACK
HOME
YET?

The angels were once the boy's 12 pets who had passed away

The goddess saw that despite his luck, the boy tried the hardest he could at everything and so sent him angels to help him

There once was a horribly unlucky young boy
